RIGHT DEVICE, RIGHT JOB, RIGHT SURFACE

Meeting the needs of a modern,
distributed workforce with
Computacenter and Microsoft Surface

LET'S GO

WELCOME TO A NEW WORLD OF WORK

KEEP YOUR MOBILE AND DISTRIBUTED WORKFORCE PRODUCTIVE, AGILE AND SECURE WITH MICROSOFT SURFACE DEVICES.

You want your workforce to be as productive as possible. At the same time, the way we work has been disrupted. People are increasingly working from home or in a hybrid fashion, which demands secure, modern technology as a business imperative.

Mobility sits at the heart of this shift. Now, more than ever, organisations are looking to give their employees mobility and agility without compromising on the power to get things done. This means equipping them with the right device for the job – whatever that job is.

Microsoft 365-powered Surface users save almost 1.5 hours every day due to productivity and efficiency gains compared with non-Surface device users, according to a Forrester Consulting survey*.

Securing productivity

Increased mobility also means more complex IT environments as more new devices connect to corporate networks. The growing number of endpoints increases potential vulnerabilities to cyber attack. So, more advanced security across devices, users, apps and their data must be introduced to empower the many faces of work.

The Microsoft Surface family of devices is designed for both productivity and security. Each device is optimised for the software your people rely on every day – no matter where they work.

As a Microsoft Gold Partner and the UK's only Surface Authorised Service Provider, Computacenter is uniquely placed to guide the best technology choices for making the new world of work... work.

* Commissioned Total Economic Impact™ by Forrester Consulting.

YOUR MICROSOFT SURFACE DEVICES, YOUR WAY

CHOOSE THE RIGHT SURFACE DEVICES FOR THE WAY YOUR PEOPLE WORK TODAY.

Every device in the Surface family is different. But, while each supports its own work requirements and user preferences, all the devices share familiar user experiences.

From hybrid tablets and 2-in-1 detachable notebooks, to all-in-one desktops and digital whiteboards, no matter which device you choose to keep your workforce productive, they all feature great graphics, powerful performance and sleek design.

WELCOME TO THE FAMILY

Surface Pro X Ultra-thin laptop

Choose this device for its PC-class power and adaptability to transform from ultra-thin laptop, to powerful tablet, to portable studio.

Surface Pro Ultra-light and versatile

The iconic Surface 2-in-1, this device is the perfect balance of laptop performance and tablet mobility.

Surface Laptop Style and speed

A thin, light and elegant design, this stylish laptop comes in a range of colors and materials, and a choice of 13.5" and 15" touchscreens.

Surface Book Powerhouse performance

The most powerful Surface laptop yet gives users a cutting-edge balance of performance, versatility, and mobility, with a detachable screen and an immersive studio experience.

Surface Studio Ultimate creative studio

Designed to unleash creativity in new ways, this is Microsoft's most immersive and powerful Surface desktop and features a 28" fully adjustable touchscreen.

Surface Hub Interactive whiteboard

Built for collaboration, this revolutionary device enables teamwork and whiteboarding ideas outside traditional meeting spaces using advanced videoconferencing technology.

Surface Go Perfectly portable 10.5" tablet

With its 10.5" touchscreen, this slim, lightweight 2-in-1 laptop gives portable power in the office, at home, or out in the field, enabling teams to run their essential business apps.

Talk to Computacenter to discuss the best Microsoft Surface devices for empowering the many faces of work in your organisation.

Surface Book 3

With a limitless range of business use cases, Microsoft Surface devices enable employees to work at their best. Underpinned by Windows 10, Microsoft 365 and robust in-built security capabilities, each device provides your people with the flexibility and freedom they need to work on whatever they want, wherever they need to.

Shown here are just a few of the many ways in which Surface devices are being used to power workforce connectivity and productivity.

ENHANCE. PROTECT. EMPOWER.

FROM SEAMLESS COLLABORATION
AND ANYWHERE, ANYTIME ACCESS
TO THE MICROSOFT 365 SUITE OF
APPS, THE BENEFITS OF DEPLOYING
SURFACE DEVICES QUICKLY ADD UP.

The business case for investing in Microsoft Surface devices is clear. The better able your employees can collaborate and work securely from anywhere, the more productive they'll be.

Collaborate freely

Designed to empower collaboration – from anywhere – every Surface device features Studio Mics, Dolby® Audio™ and HD cameras to keep people connected via high quality secure Teams meetings.

Do more

Instantaneous access to the Microsoft 365 suite of apps enables effortless information sharing and enhances virtual teamworking, all designed to boost productivity.

Stay protected

Microsoft Surface devices managed through the cloud can be easily secured from a central control point. Single-sign-on and biometric authentication for log-ons keep devices protected, whether inside or outside the office environment.

Simplify deployment

Microsoft 365-powered Surface device deployments drive cost and time savings through faster app updates and up to 75% reduction in help desk call times*.

86% of respondents in the Forrester Consulting study* agreed Microsoft 365-powered Surface devices had helped their employees become more collaborative.

Organisations using Microsoft Surface with Microsoft 365 reduced the number of security breaches annually by about 20% for Surface device users*.

PARTNERS IN THE DIGITAL WORKPLACE

COMPUTACENTER AND MICROSOFT HAVE WORKED TOGETHER FOR MORE THAN 20 YEARS, HELPING THE MODERN ENTERPRISE ADAPT TO THE MANY FACES OF WORK.

We help organisations empower their employees with Microsoft Surface devices and consumer-like engagement services that enhance productivity and boost satisfaction.

Right device, right person

From device selection to forecasting and inventory management, through build management and device configuration, we get the right devices into the right hands. Pre-configured boxed Surface products can be delivered straight to your people – whether at home or in the office.

Anywhere security

We provision and deploy devices remotely without sacrificing security, ensuring everything remains highly secure and integrated within existing security stacks straight out of the box.

Scaling up

We can hold stock and have the capacity to deliver large scale deployment programmes, enabling our customers to scale, bring services to market faster, and reduce costs.

Greener delivery

We can even take away and recycle all the packaging to support your sustainability objectives.

Seamless integration

However and wherever your organisation uses its Surface devices, our Integration Centre Services ensure they are deployed and configured to function within your multi-vendor infrastructure and workplace solutions – all tailored to the way you work today.
